Brand Book

Fresh minds. Serious creative.

Version 1.0 · 2026

Who we are

The name is playful. The thinking is sharp. The execution is serious.

Greenmelons is an independent creative production studio built around fresh thinking, contemporary culture and professional creative execution.

Services: Brand · Campaigns · Digital · Content · Production · Agency support.

Voice

Warm, confident, never stiff. We open with “Bula.” We say *fresh* and *serious* together. Plain words, short sentences, a little humour.

Say

“Fresh ideas, properly executed.”
“Bring the fresh thinking, we’ll make the work.”

Avoid

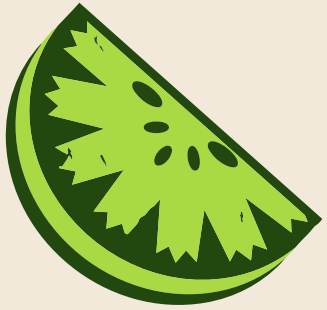

Corporate filler, over-slang, anything that sounds like a borrowed portfolio.

The logo

Primary lockup: the melon slice sits left of the name, vertically centred. Use this version wherever there is room. Files: `greenmelons-logo-*.svg`

Mark & name

The mark. Social avatars, stickers, caps, favicon, small merch.

The name alone. Sleeves, tags, long thin placements.

Keep clear space equal to the height of the “e” in the name on every side.

Minimum sizes

Full lockup: 25 mm / 120 px wide

Mark alone: 10 mm / 32 px high

Typography

HEADLINES

Fraunces

Heavy weight (800), Soft 100, Wonk on. Tight tracking (−2.5%). Italic for the second half of a line: *Serious creative.*

BODY & UI

Instrument Sans

Regular 400, Medium 500, Semibold 600. Sentence case. Free on Google Fonts, as is Fraunces.

Specimens above are shown in stand-in fonts because Fraunces and Instrument Sans must be installed from Google Fonts for exact rendering. Merch artwork should convert type to outlines.

Motifs

m1

m2

m3

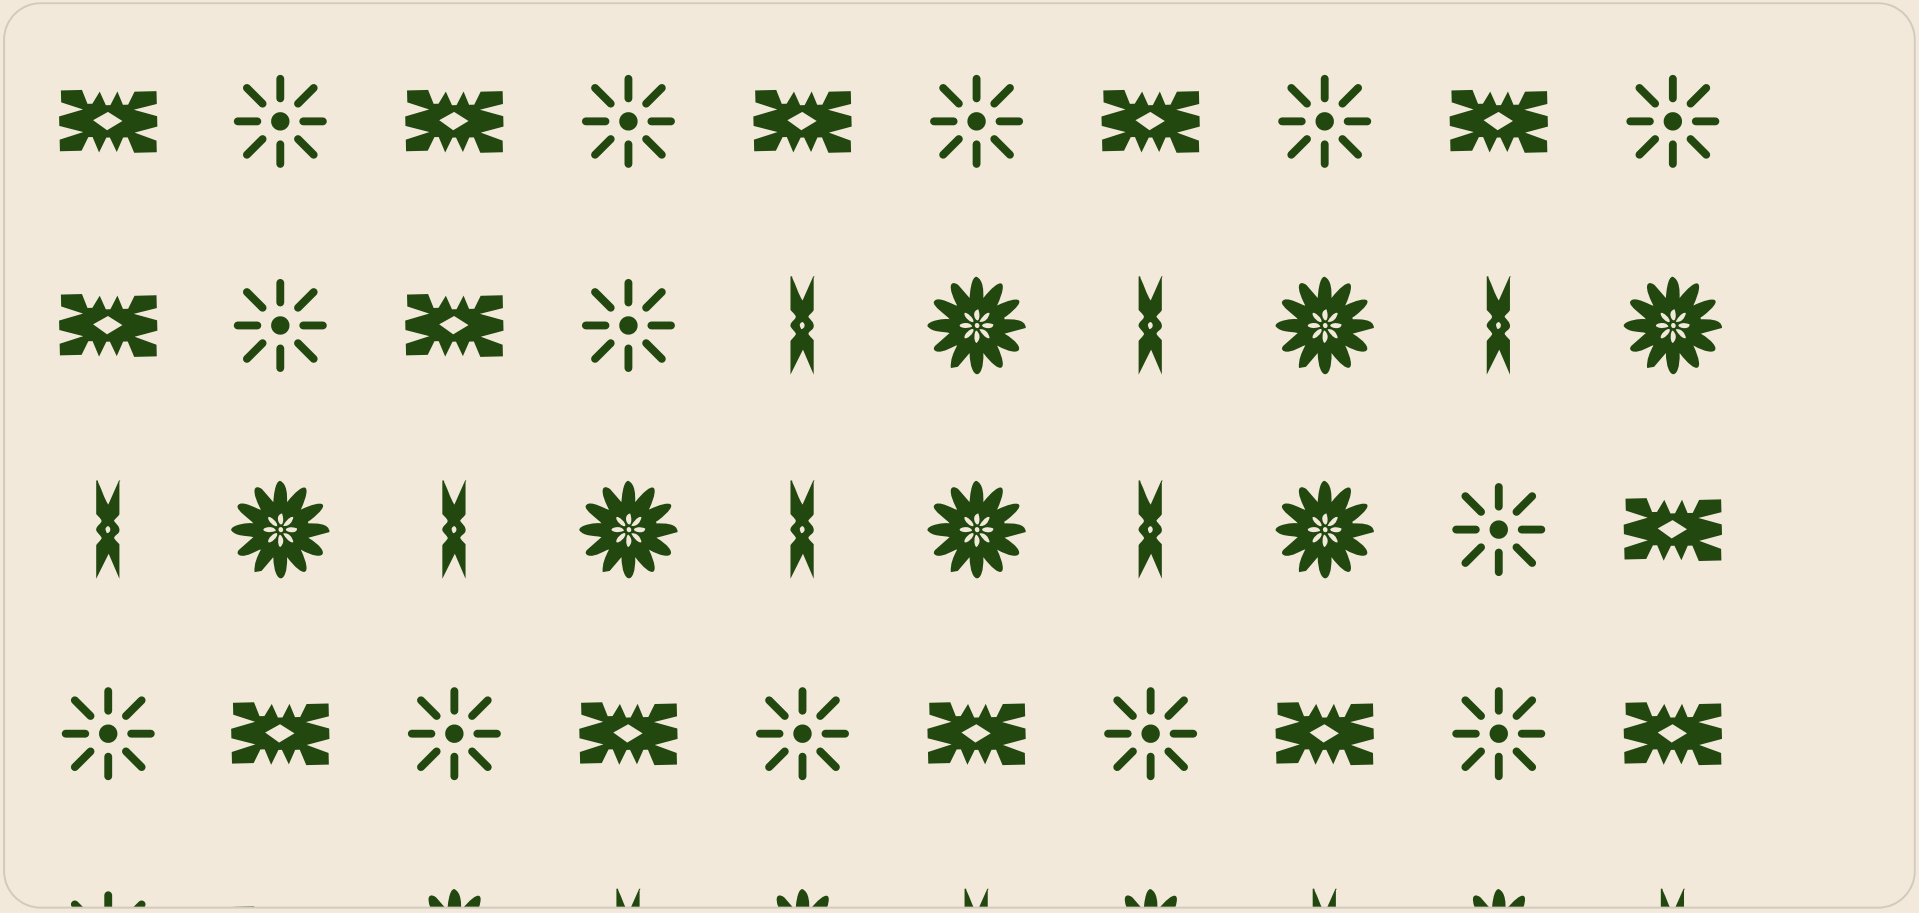

m4

Four Fijian-inspired motifs plus the border strip. Use them as a family: scattered, repeated or as a divider. They are one-colour shapes, so they recolour freely.
Files: `motif-m1…m4-*.svg` , `pattern-strip-*.svg`

All-over pattern

Staggered rows, equal spacing, alternating motifs. Green on cream, lime on green, or cream on night green. Ideal for socks, tote linings, wrapping tape and packaging.
